Nazis Claim Swift Advance Towards Athens As Imperial Army Battles On HEROIC SACRIFICE OF BRITISH TROOPS

AS THE BATTLE OF GREECE NEARED ITS CLIMAX YESTERDAY, BRITISH AND ANZAC TROOPS, FIGHTING ONE OF THE MOST VALIANT REARGUARD ACTIONS IN HISTORY, DISPLAYED ALMOST INCREDIBLE BRAVERY IN COVERING THE WITHDRAWAL OF THE MAIN BODY OF THE EMPIRE FORCES.

While Cairo communiqué admitted that the withdrawal was continuing, B.U.P. reported from Cairo that advanced British units were showing almost reckless courage against the German offensive and were sacrificing their lives in order to assure the withdrawal of their comrades.

The Anzacs, it was added, were contesting every inch of ground north-west of Athens, and were said to have made several successful counter-attacks.

Despite the heaviest enemy fire, which showed no sign of slackening, the morale of the Imperial forces was reported to be excellent.

Meanwhile, the German High Command claimed that the withdrawal had continued and that their troops were within 30 miles of Athens. Mechanised forces, said the official communiqué, had passed through Thebes, in pursuit of the enemy.

After overcoming the position at Thermopylae, the commandant, "British troops were defeated east of the historic narrow path near Meros. Several hundred British were taken prisoner and 300 were captured."

Other German troops from Thebes crossed on to the island of Euboea and pressed forward from Chalkis into the mainland.

Stubbish Battle
The communiqué also quoted spectacular successes against British shipping in Greek waters. The Germans said they have 14 merchant ships of about 20,000 tons and damaged all other vessels.

Local information reached newspapers in Athens confirmed the report of the German advance to the south.

The battle for the Pass of Thermopylae was, said the newspapers, one of the most heroic of the war, though occurring in a strong position in the mountains, up to a bitter resistance which did not relax even when the Germans brought their heaviest guns.

American communiqué also said that the bulk of the Imperial Forces, together with most of their tanks and equipment, have already been embarked from Greece—a report unconfirmed in Athens.

Athenas Radio was on the air again last night. The communiqué quoted from the newspaper "Ethnos" the following: "We shall face the battle of our fate. We must meet our fate with unshakable faith in the future of Greece. He ended with the words: "We shall be on the air again tomorrow (Sunday) evening."

Premier's Promise

"THEY'LL GET IT BACK"

Manchester, Saturday.

"THEY'LL get it back threefold," said Mr. Churchill today as stood in the midst of Manchester ruins after a tour of bomb damage in the city.

The Prime Minister was greeted with cries of "Good old Winston" as he made his inspection. He waved his hat in greeting.

The Prime Minister saw the bombed cathedral, the rubble that had once been the Royal Exchange, the shell of one-half of the Royal Exchange.

He then gave rousing shouts of "Are We Downhearted?" and "Good old Winston." Mr. Churchill left, murmuring, "Good bless you."

Mrs Churchill accompanied her husband.

Twenty-one American republics are represented on the Committee, which has been asked to be used to "promote the peace and security of the continent."

Mr. Edward R. Stettinius, Assistant-Secretary of State, said today that the recommendation would go to the various American Governments concerned—Reuter.

Australia Kills German Lie About "Dispute"

AUSTRALIA is solid with Britain. Australians are proud to be associated with the British and Greek troops in the Balkan sector," said Mr. Fadden, Australia's Acting Prime Minister, today.

He was denying Axis propaganda that dissatisfaction exists in Australia over the

BLACK-OUT TO BE SHORTENED

FROM NEXT SUNDAY MR. HERBERT MORRISON, MINISTER OF HOME SECURITY, IS TO GIVE US A SHORTER BLACK-OUT. HE WILL DO SO BY STEALING A LITTLE FROM THE LONG SUMMER TWILIGHT.

BOMBS ON S.E. TOWN

ENEMY ACTIVITY OVER THIS TERRITORY yesterday was on a very small scale, states an Air Ministry communiqué.

During the overnight bombs were dropped on a town on the South East Coast. Several people were injured, and a number of houses damaged. There was no damage to any bombs being dropped elsewhere.

(See Page Eight, RAF Root Raiders.)

COLD WIND IN STRAITS

Weather in Straits of Dover was bitterly cold last night with snow and sleet blowing from the north-east. The sea was choppy and patches of low cloud covered the sky.

What Morrison's twilight will start is not known, but he means to everyone is shown by these figures for the London blackout:

Aug. 9 ... 11.45 p.m. 4.37 a.m.
Aug. 10 ... 10.15 p.m. 5.45 a.m.

Attempts to tell the German press and neutral countries that trouble has arisen between Britain and Australia should try another line, as the communiqué said.

He also said that the Cabinet will make a complete review of the situation in the Balkans when Parliament meets. It might decide how best the country can help the Balkan anti-Dictatorships in other war battles.

Climbs Like a Rocket

TYphoon, OUR NEW WONDER PLANE

BRITAIN'S latest wonder-plane is the Typhoon fighter, the Minister of Aircraft Production has said. It is already in full production.

Details of its full performance are a secret, but these facts can be said about it:

The Typhoon's speed is over 400 m.p.h., and it is armed with both machine-guns and cannon, and has a longer range than either the Hurricane or Spitfire.

With full load it climbs like a rocket, its rate of climb higher than anything the enemy machines can do.

As a night fighter, the Typhoon is fitted with the new Sabre engine, which develops

2,400 h.p. and is claimed to be the greatest aero-engine ever produced.

Lord Beaverbrook mentioned the Sabre in his broadcast, when he spoke of the work of the men

in the aircraft industry.

Nazi Press in Berlin is already working itself into a fury over the news that the U.S. is developing such a plane.

It is determined that American-built planes and munitions get safely to Britain.

The Deutsche-Diplomatico-Politische Korrespondenten wrote: "The new campaign of the U.S. is aimed at us, and we can warmerong that they intend to continue their policy of intervention. Roosevelt and Hull have no right to shift the responsibility to anyone else. The U.S. States will have every right to come hereafter affected by the terms of the Tripartite Pact if she intervenes in the war."

Heller's statement that submarines would sink any ships en route for Britain was still true on Friday.

NOT SCARED

But these threats will not scare.

The time is past due for doing something about these submissives.

Mr. Wendell Willkie said yesterday:

"There is no point in working day and night to keep America out of the war."

He took all the chances," said Mr. Churchill, "of course if he succeeded, So let us praise him."

ROOSEVELT PUTS OFF HOLIDAY TRIP

Washington, Saturday.

President Roosevelt has abandoned plans for a brief holiday at Warm Springs, Georgia, where the soot-coal controversy is still unsettled," his secretary, Mr. Stephen Edward Edwards, said.

Soot-coal miners have been on strike for nearly four weeks.

Agreement was reached on May 10.

I think that the Administration

should not follow public opinion.

President Roosevelt is expected to return to Washington Saturday to do what he intended to do when he dedicated Woodrow Wilson's Tomb at Staunton, Virginia, on May 4.

Already demands for the institution of U.S. convoys are reaching a crescendo.

If the President takes the

country fully into his confidence, he may be able to bring the Congress to support the use of convoys," declares the New York Times.

DELIVER THE GOODS

The Committee to Defend America by Aiding the Allies is asking Mr. Roosevelt to put more pressure on the U.S. demands that "we deliver the goods to Britain now."

The committee urges:

"Put mobilisation of the industrial, economic and moral life of the nation on a war basis."

What was at first a mystery in regard to the proposed U.S. convoys, President Roosevelt had set out was cleared up last night when it was announced that he had left Ankara by train for Smyrna.

ADVERTISER'S ANNOUNCEMENT

Mr. Reginald T. Codd, general secretary of the Alliance of Miners, Dockers, Seafarers, Soldiers, Sailors, Merchant Seamen and Airmen, all working on Sundays, need refreshment and recreation after a week's work on Sundays as much as on any other day of the week.

The Government is being asked to introduce a Bill to stop Sunday opening at once," for the war, he says, is over at last.

VIGOROUS CAMPAIGN
The Imperial Alliance for the Defence of Sunday is organising this campaign, and at the head of the national march are the political and trade union chame-

ions of the country. But its supporters do not suggest that the anti-aircraft guns and the Spitfire pilots who intercept raiders, should make Sunday a day of complete rest.

So far as the public is concerned, the main concern is the defense of Sunday.

The campaign for Sunday closed with a vigorous sale. Meetings are to be organised, delegations are to see M.P.s, press conferences are to be held in Parliament, and M.P.s who voted against Sunday theatres are to be asked to back the new campaign.

HITLER NOT WINNING

The Prime Minister is to make a confident view of the future.

The view in high circles is this:

The campaigns that are being won by Hitler are helpful to us and hindering to us. We are going to win the war for Germany.

The war can only be won by him if he starves us out, bombs us to smithereens, or succeeds fully invades us.

The view is held, with confidence, that this and that while we are held by Hitler's land and sea armaments on this island, we shall, in time, win the war.

We shall then be able to launch attacks on towns and cities of Germany, an aerial blitz like the one which has never been made before. This will be the factor that will win the war.

In manifesto on "sign economies" the committee say that "Anglo-Saxon countries now have more than enough resources needed to defeat Hitler."

"But as long as those resources remain with us, we can still maintain our maximum effective striking power our situation will remain precarious."

With U.S. help, the following measures will enable us to overturn the Nazis.

"In conclusion, less consumption, all people making their most useful contribution, equality of opportunity, and co-operation in central planning."

Cut in current consumption, it is stated, must be immediate and drastic, and cut in imports to stocks of essential foodstuffs and other commodities, such as clothing.

Problems Of Queues and Prices YOUR FOOD QUERIES ANSWERED

SPECIAL TO "THE PEOPLE"

SOON THERE WILL BE A FOOD DEBATE IN THE HOUSE OF COMMONS, AND IN IT MAJOR LLOYD GEORGE, PARLIAMENTARY SECRETARY TO THE FOOD MINISTRY, WILL MAKE TWO SPEECHES —ONE AT THE START REVIEWING THE WHOLE FOOD SITUATION, AND ANOTHER AT THE END REPLYING TO CRITICISMS BY M.P.s...

He will have a reassuring story to tell. For though there have been inevitable inconveniences and inequalities in Britain there has gone hunger, and in many directions the food situation is improving.

Here are some of the questions people are asking and the answers Major Lloyd George may give:

Q.—WHY ARE THERE QUEUES IN THE MARKETS AT MANY PLACES?

A.—MALES, because women shoppers insist on following each other in. Most queues are unnecessary, but some women buy other things they hurry to do the same.

Q.—DO YOU THINK THEY ARE BETTER SUPPLIED THAN OTHERS?

A.—One answer is that districts often imagine they are the only ones suffering from a shortage of a particular thing, in fact, a short supply can turn into a glut.

Q.—WHAT IS MEANT BY GROUPED IN FLOWERS BORDER?

A.—It means that flowers are grown either in bold groups or in double rows at the back of the border with a pleasing effect.

Most curled parrot

and double-flowered

cabbage, another vegetable with a delicate foliage of unusual appearance.

Blue-grey foliage of sea-avena always looks well. Try them if your space is limited, to grow a few of the smaller kinds in flower borders. You would not only add to home ladder, but may make change in your flower borders.

DAPHNE PLAYS DOCTOR

Every distinguished French chef working in the West End is a member of this organisation, according to Mr. Georges Brignon, its secretary. The members, "Les Chefs de la Cuisine," have formed a committee to advance the Food Front, by making the most of their knowledge of cooking.

Thus, the committee of French cooks experts calls itself the Association Culinaire Francaise. It is run by Mr. Georges Brignon, chef in the Savoy.

Chefs from the kitchens of the Savoy, the Dorchester, hotel, restaurants and clubs with whom cookery experts are combining to make a small nation of meat, fish and vegetables daily.

"We are not setting up as public advisers," Mr. Brignon said. "We are giving advice to the public, to Mr. Morrison's advice and 'Go To Our Kitchen' in the kitchens."

HERE THERE AND ANY OLD WHERE

SETTING UP AND TAKING NOTICE

(Somewhere in the Country)

DEAR SIR,
They had 100,000 guests at Dennis' wedding at Hollyoaks, and I was there.

W. Cakeweed, B.O.E.

NO. MR. Cakeweed, a very good show considering they started building on the make of braces and taught them to play chess instead of the K.I.P. corner of the paper, and now she is a mother of a million.

AND there's dear old Nellie. A widow, she's eight and dawdles over the bridge in the moonlight, and never gets up in time.

Shirley Temple has a gate of a quarter of a million.

—◇—◇—◇—◇—◇—

DON'T Musso, Gayda and the rest of the wops whoop lovely "Yesss" Add it winning a battle for them?

MOST B.B.C. news bulletins, nowadays, "At the Athelstan Applebottom will describe a visit to a war time lemonade factory."

The Sayings of Mrs. Miggles

—◇—
Mrs. Miggles
P. W. Polkington, colourless, full of pitfalls—simply full of pitfalls!—and other Mondas I look on with admiration. She's a woman who's a doin' 'ern' angel some of 'em out as I arrove. she

I see to 'er. Whatever you think that torn Union Jack for. Mrs. Uggins, it's a waste of time.

—◇—◇—◇—◇—◇—

TOM Union Jack! she shouted back at me, mind you! I never raised my voice, mind you! Tom Union Jack! we've got fun things to do, like chess problem instead of the K.I.P. corner of the paper, and now she is a mother of a million with a cold mind.

At the bar, I meant to say, we've got our own Nellie. The poor customer started to make something for me, but I said, "I'm not interested in your chess problem instead of the K.I.P. corner of the paper, and now she is a mother of a million with a cold mind."

For Blood, Veins, Arteries & Heart

WENT BACK TO SAVE HIS SHIP

A SEA captain who had to abandon his torpedoed, blazing ship kept it afloat long enough on the waves from a life-boat, boarded her the next morning—and safely brought her back to port.

He was Capt. Church, of the steamer *Franziska*, whose ship was torpedoed at night without warning, he ordered his men to the boats, and all were picked up by a destroyer. Captain Church, the destroyer's captain, that he had no intention of leaving his ship until she had sunk.

The destroyer had to return the convoy and, for the safety of the crew, went to the number of his crew re-entered a lifeboat and pushed off into the sea.

When another escort vessel arrived they asked for a tow with the result that the steamer *Franziska* came back, but the ship was burning so furiously that it was decided to make the attempt to light it.

By dawn the bad weather had given way. Within ten and a half hours the engineers had steam on the boilers and the ship was afloat again.

The steering gear had gone, she had taken a good deal of water and the engine room had to be pumped out again, but she was safely brought into harbour.

PRISONERS: NO "SWAP"

For Sick Men Only

NO general exchange of prisoners in war between Britain and the empire, it was learned yesterday.

Anxiety and disappointment may have been caused by statements that exchanges are pending.

It is expected that both the Commonwealth German medical commissions have examined a number of prisoners seriously sick or wounded under the terms of the international convention.

They have recommended that

prisoners be exchanged but no details of the German commission's findings are available.

The committee to represent

the difficulties in making

an exchange will meet on a

shorter time to find a solution to this problem, it was declared.

Statements that reparations are to take place at an early date are described as without foundation.

Hitler's Next Move

The Tobruk Spirit

CRICKET IN STEEL HELMETS

WHEN GERMAN BOMBERS RAIDED TOBRUK A FEW DAYS AGO, A GAME OF CRICKET BEING PLAYED BY RAF GROUND STAFF WAS STOPPED. CALMLY THE MEN FETCHED THEIR STEEL HELMETS AND WENT ON WITH THE GAME.

While they continued hitting up runs, Hurricanes shot eight of the raiders out of the sky, and the damaged ones others so badly that they probably did not get back to their base.

Rousing cheers and shouts of "One, two, three, four" rang out over the ground as the fighters snaked their way among the smoke and fire. One sergeant says the Air Ministry news service.

FIGHTER ESCORT

Nine German bombers appeared over the port before noon, and a look of immediate alarm shot through the air force.

During this engagement about 20 second-line fighters attacked from above. The thrilled troops on the ground saw the Hurricanes roar in like the fighters with undiminished aggressiveness and

sent four of them diving to destruction.

During the action one Hurricane was shot down, and a French Free Lieutenant, who already has a new record, brought down two more. Two more planes, and a D.F.C. squadron leader was equally successful.

The spirit of Tobruk defenders is high.

"We wouldn't have missed this chance," said a young sergeant, and his attitude is typical.

DOVER SHELLED: NO CASUALTIES

GERMAN long range guns mounted on the French coast were in action across the Dover Strait, shelling Dover for nearly an hour yesterday afternoon.

In the Dover area, the shell fire warning was sounded.

There were no casualties and no damage.

NABBED NAZI AIR ACE

NAME OF BRITISH PILOT WHO SHOT DOWN GERMAN'S GREATEST FIGHTER "ACE," MAJOR HERIBERT HERRICK, COMMANDER OF THE NOTORIOUS RICHTHOFEN SQUADRON, WAS DISCLOSED YESTERDAY.

He was two-and-a-half-year-old Flight-Lieutenant John Charles Dundas, 60 (West Riding), RAF, winner of the D.F.C. and Bar.

He was his 13th Nazi victim.

But he never knew the distinction of being the first to shoot down on November 28 and he sent one of three Messerschmitts crashing down over the Isle of Wight.

Battle Of Flames Tests Our Armour

THE BATTLE ON OUR DOORSTEPS AGAINST FIRE AND HIGH EXPLOSIVES IS JUST AS IMPORTANT FOR THE OUTCOME OF THE WAR AS ANY BATTLE OF TANKS IN THE MIDDLE EAST.

Mr. Herbert Morrison, Minister of Home Security, said this at Guildford yesterday.

"The battle of the flames is a tough fight," he said. "It tests every joint in our armour and shows us every weakness of our forces."

"We are moving towards the point where steel threatens to melt in the fire, men melt in the heat of material, men and skilled officers, all drawn from near and far."

"Even when things look bad, you may buy time by lighting a fire, getting an air raid, or attacking from above."

"But there was no reply from John. He had in turn been shot down by the other two Messerschmitts and killed!"

"Good show, John," was the reply.
